**Now that I have reviewed and selected the online applications for my job, how do I reject an applicant?**

# Reject An Applicant

The screenshot shows a web application interface for managing job applications. At the top, there are navigation tabs: 'Employees', 'JobX', and 'Access & Audit'. Below this is the page title 'View Job Applications - STUDENT EMPLOYMENT - Stu Admin Assistant I'. A paragraph of text explains that the list contains all applications received for the job and that clicking an applicant name or previewing the application will affect the 'New!' status. Below the text is a 'Filter by Name' section with input fields for 'First Name' and 'Last Name', a checkbox for 'Only show New?', and buttons for 'Apply Filter(s)' and 'Clear Filter(s)'. A red arrow points to the 'Reject Applicants' button in a toolbar that also includes 'Delete', 'Export Summary', 'Export Details', 'Print Summary', 'Print Details', 'Send Greeting', and 'Email Applicants'. Below the toolbar is a table with columns for 'Name', 'Email Address', 'App Date', 'New', 'Flag', 'Emailed?', and 'Resume'. The table contains three rows of applicant data.
