

Create Embed Codes for your Echo 360 Videos to insert into your Canvas Course

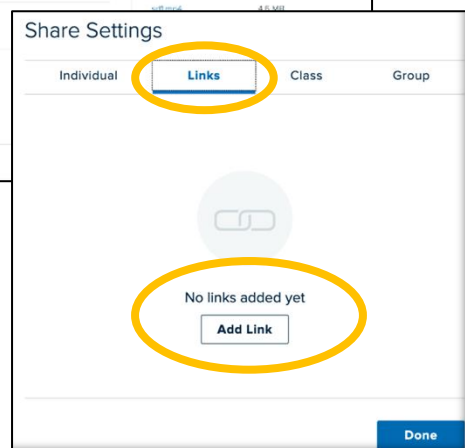

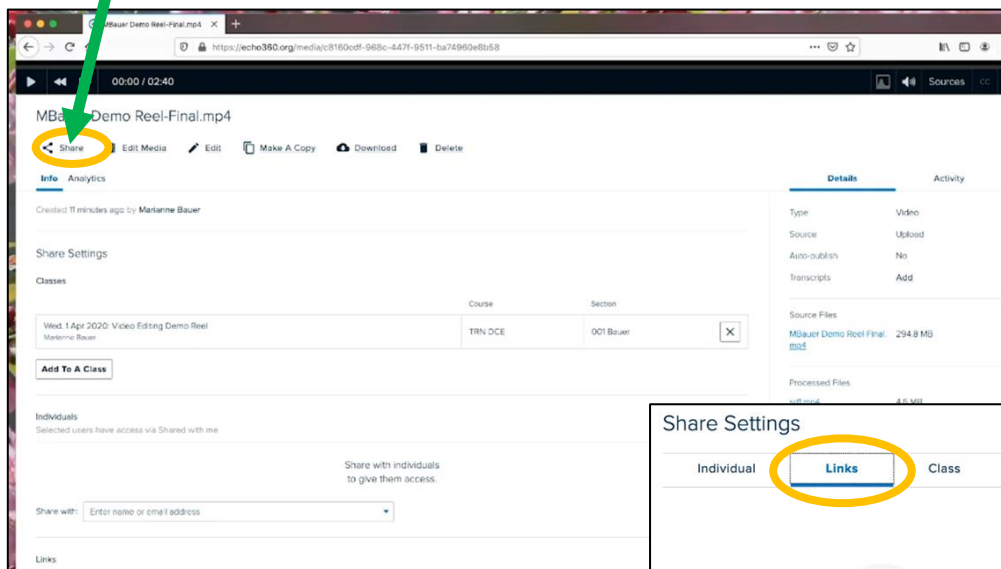

1. While logged into your Echo360 account Library: 
 - a. Locate your video, hover over video thumbnail and click on the **ellipsis (three dots)** , and select the **Share** option.

or

- b. Tap the **Course** tab, tap your course, then find the video, tap the video symbol 

Select **Details** ->

Tap **Share**

2. Tap **Links** tab – **Add Link** ->

3. Tap the **Embed** button

4. Choose desired settings, then Tap **Copy** to save to the clipboard.

5. Tap **Done**, then paste the embed code code link into your Canvas course to embed your Echo360 video. See your Canvas documentation for various ways to embed videos.

6. Enter a Description.

7. Start Timecodes in a longer video can be set to start anywhere in the video and direct viewers to a specific start place. The video still plays to the end.

8. Toggle **Public access** to off, or left for Canvas use. Private links collect valuable student analytics for your videos.

Public and Private settings

Use **Private** links whenever possible. Private links require a CSU login/authentication (eID and eID password). Private links track very valuable analytics on individual student video usage. Canvas linked courses use private links by default. Public access is left, off.

Use **Public** links if you wish to share with colleagues or anyone not affiliated with the University, (no eID). No usage data is collected. Anyone with the link can access the video. Public access is right, on.

See Canvas Support documents for how the various options for placing video links into your Canvas Course.
