or

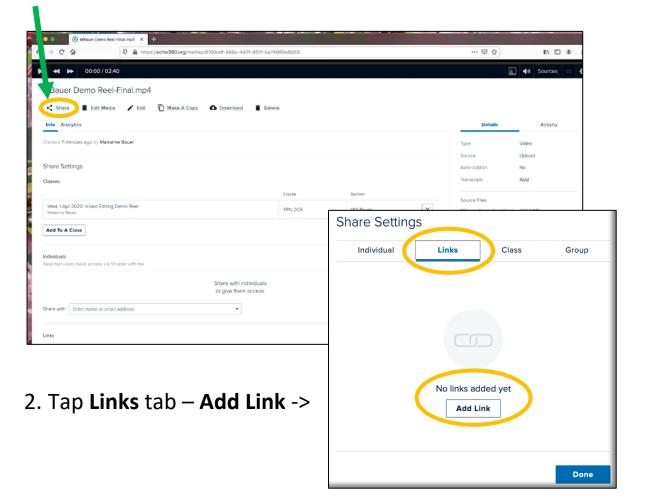

b. Tap the **Course** tab, tap your course, then find the video, hover over video symbol oselect:

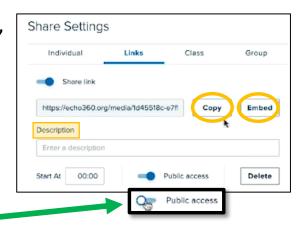

Share

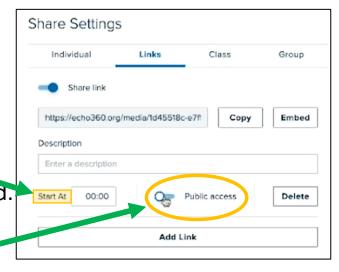

Share

- 3. Tap **Copy** to save to the clipboard, and then paste the link into your Canvas course, etc.
- 4. Type a **Description**
- 5. Toggle **Public access** to off, or left for Canvas use.
- 6. For an Embed Code, tap **Embed** and then Copy. Paste the embed code link in your Canvas course to embed your video.
- 7. Start Timecodes in a longer video can be set to start anywhere in the video and direct viewers to a specific start place.
 The video still plays to the end.
- 8. Public and Private settings

Use **Private** links whenever possible. Private links require a CSU log in/authentication (NetID and NetID password) Private links track very valuable analytics on video usage. Canvas linked courses use private links by default. Public access is left, off.

Use **Public** links if you wish to share with colleagues or anyone <u>not</u> <u>affiliated</u> with the University, (no NetID). No usage data is collected. Anyone with the link can access the video. Public access is right, on.
